

Competition Format:

The HP Junior/Cadet Sub Committee will oversee the execution of the event and will determine the event format/precise schedule which will be sent to all participants at the close of registration. Each weapon and/or gender may select different formats based on number of participants.

Following is an example of a preliminary format/schedule being considered:

(Please note that this is subject to change based on number of entries as noted above.)

ME, WE, MF, WF, MS, WS – Cadet & Junior:

Events will be partially organized using a Swiss System for Fencing Tournaments:

- The Swiss System for Fencing Tournaments is designed to organize fencing events with up to 12 fencing bouts (rounds) per participant
- All participants are placed in one pool
- For the first round opponents are selected randomly
- If the number of participants is uneven, one of the participants will have a “bye” and will be granted a victory with the score of 0:0
- Participants cannot be granted a “bye” more than once
- For the Round 2 and after, participants will have opponents with the same number of victories (or best possible match)
- Participants will not fence each other twice in the same pool
- The participants are ranked: first by the number of victories, then by the indicator and then by the highest number of touches scored
- If a participant is not able to continue fencing for any reason, he/she will still remain in the pool and his/her future opponents will be granted victories with the score of 1:0
- Depending on the event timing, participants will possibly have shorter breaks between the bouts or no break time at all
- National Coaches reserve the rights to change the number of bouts per participant in a Swiss System Event at their discretion
